EXPERIENCE

 **Sulok Digital Solutions Pvt Ltd**

6 MONTH INTERNSHIP

I have completed my frontend internship, gaining experience in various technologies, including HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React, and Next.js.

6 MONTH WORK EXPERIENCE

As a frontend developer, my time with Sulok Digital Solutions Pvt. Ltd. has been both rewarding and educational. I have gained extensive knowledge and practical skills that have significantly enhanced my web development abilities.

PROJECTS

 **Portfolio**

 **अस्तित्व**

 **SocialPulse**

I have crafted a comprehensive portfolio that showcases my skills and passion as a front-end developer. My portfolio is built using a combination of advanced technologies including React, Next.js, Tailwind CSS, Framer Motion, Acernity UI, and shadcnui.

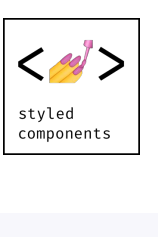

अस्तित्व is a Python-based blog services platform developed using the Django framework. This platform is designed to empower administrators to efficiently manage and create blog content while providing a secure and user-friendly environment for both administrators and readers.

- My Contributions:
- Designing: Led the entire design process to ensure a cohesive and visually appealing user interface, focusing on usability and aesthetics.
 - Loading Bar: Implemented a custom loading bar to enhance user experience during page transitions and data loading.
 - Contact Page: Developed and designed a custom contact page, including a unique form design and submit button, ensuring seamless communication for users.

The SocialPulse aims to create a user-friendly platform that allows individuals to connect, share media content, make friends, and engage in real-time conversations. This website was created using PHP.

- My Contributions:
- Designed intuitive and visually appealing user interfaces.
 - Developed smooth animations to enhance user experience.
 - Created and implemented a chat module for real-time conversations
